

Team Based Pediatric Care – American Academy of Pediatrics Provides Guiding Principles

American Academy of Pediatrics (AAP) issued a policy statement in July 2017 supporting team-based pediatric care. Teams are needed to support patient-centered care and AAP recognizes pediatricians as the ideal leaders of team based care for children. AAP further encourages connections with schools, mental health agencies, and other community partners.

The AAP identifies that team-based care for children is different from that for adults for 3 key reasons: early environment and experiences have crucial effects on lifelong health, resources targeted toward health promotion and disease prevention have significant societal benefits, and pediatrics fundamentally incorporates the dynamic nature of childhood. Adverse childhood experiences and toxic stress can lead to lifelong physical and mental health challenges.

The AAP statement focuses on team role clarity. AAP encourages team huddles at the start of the day when possible and/or the use of technology to allow for frequent communication between team members.

Effective team-based care requires mutual agreement on such items as:

- (1) whom the family should contact for what sorts of concerns
- (2) who will order or refill various prescriptions or provide supportive justification (e.g., letters of medical necessity) for medications, equipment, supplies, therapies
- (3) which team members update which portions of the (electronic) medical record

Included below is the AAP statement and the AAP resources for team-based care.

UPCOMING EVENTS

Click on the dates below to register for MiCMRC Complex Care Management Courses:

[February 5-8, 2018, Grand Rapids](#)

[February 12-15, 2018, Lansing](#)

[March 5-8, 2018, Lansing](#)

MiCMRC CARE
MANAGEMENT

EDUCATIONAL WEBINAR

Date and Time: Wednesday
January 17th 2-3 pm

Title: Quality Metrics in Ambulatory Care

Presenter: Natalie Pirkola,
Pharm D, MBA, CCM, CPHIMS,
BCACP

Register [HERE](#)

The Michigan Care Management Resource Center supports ambulatory practices statewide to implement and build upon Patient-Centered Medical Home (PCMH) and PCMH Neighborhood (PCMH-N) capabilities related to care management, population management, self-management support, and care coordination. MiCMRC provides foundational and longitudinal curriculum, tools and resources to assist practices with developing a sustainable, evidence-based clinical model for care management activities. Support for the Michigan Care Management Resource Center is provided by Blue Cross® Blue Shield® of Michigan as part of the Blue Cross Value Partnerships program. Michigan Care Management Resource Center is not affiliated with or related to Blue Cross Blue Shield of Michigan nor Blue Cross Blue Shield Association .
